

Quality approved Breathalyzer AL8000 Plus

Advanced Fuel Cell Sensor

11 X 11 mm size of fuelcell sensor
provides accurate and reliable result in seconds

Recall the Data

Last 10 results with elapsed time and 3 types of
testing counts are trackable

Calibration Alarm

Be informed of the remained number of tests
& days until the next calibration

Specification

Indication of B.A.C

0.000 to 0.400%BAC by FND (segment type) Display

Warm up time

3 seconds~4 minutes

Response time

within 10 seconds at 0.100%BAC

Mouthpiece

Individual packed disposable mouthpiece

Power supply

Two 1.5V “AAA” Alkaline batteries

Weight

66 g (Including batteries)

Dimensions(mm)

100(H) X 44(W) X 15(T)

Temperature conditions

Operation 5 to 40 °C

Storage 0 to 50°C

Certifications

- ✓ FDA Cleared
- ✓ Conformed DOT/NHTSA's Model Specification
- ✓ CE
